Web Sites That work!

Worldwise.net is a Michigan-based web firm specializing in web site design, hosting, marketing, and PC support. Since 1994, our experienced team has built its success through providing reliable, quality products/services and exceptional customer service. Our goal is to help our clients meet and exceed their goals.

A member of our talented design team meets one-on-one with each client to ascertain his/her web site objectives and business goals. The finished web product is meant to truly reflect a client's image through a functional, user-friendly web site.

Want to sell your products online? Worldwise.net can create your e-commerce site and even help manage inventory. And when it comes to driving customers to your site, our Internet marketing skills can assist.

Best yet, there is no need to worry about how a new web presence will coordinate with other marketing tools. WorldWise.net can develop custom marketing plans, including radio, television, and/or print media. Through the creative use of multimedia presentations, video production, and/or e-newsletters, our management staff will develop a plan designed to accommodate your goals and visions. Working as a team, we can create a web package that works best for you and your business growth!
